4. Keeping Track: Viewing Word Statistics	5
5. For Admins: Topic Management	6
6. Admin Power Tools: Data Import and Export	6

1. Getting Started: Login and Registration

1.1 Registration

To start, open WordQuiz by typing its URL into your web browser. This will bring you to our home page, where you can find the "Register" button on the top right. Clicking this button will open the registration form.

In the form, you'll be asked to fill out the following fields:

- Username: Choose a unique name that will identify you in WordQuiz.
- Password: This should be a strong, secure password that you will remember.
- Email: Your email address will be used for account verification and communication purposes.

After you've filled in these details, click the "Register" button to create your account. Congratulations, you are now part of our WordQuiz community!

1.2 Login

Once you have registered, you can log in by clicking the "Login" button on the home page. Enter your registered username and password in the respective fields and click "Login." You're now ready to start exploring WordQuiz!

2.Exploring Topics: Browsing and Selection

When you're logged in, navigate to the "Topics" section using the navigation bar at the top of the page. Here, you will find a variety of language learning topics to choose from. The topics are represented as clickable cards with a brief description for each. Simply click on a card to select your preferred topic. With WordQuiz's wide range of topics, there's always something new to learn!

3. Dive Into Learning: Playing a Game in a Topic

After selecting a topic, you'll be taken to the game page. Here, WordQuiz presents an interactive word translation game. The game displays words in the language you're learning, and your task is to provide the correct translation in your native language. It's a fun and effective way to enhance your vocabulary!

4. Keeping Track: Viewing Word Statistics

WordQuiz offers a powerful "Word Statistics" feature, accessible through the main menu. This feature presents an overview of your learning progress, providing insights into the words you've mastered and those that might need a bit more practice. The statistics are presented in an easy-to-understand graphical format, making tracking your progress both fun and rewarding!

5. For Admins: Topic Management

If you have administrative rights, you'll have access to the "Admin Topics" section found in the main menu. This tool allows you to manage the available topics. You can add new topics, edit existing ones, or delete topics as needed. This feature gives you complete control over the learning content within WordQuiz.

6. Admin Power Tools: Data Import and Export

As an administrator, you also have the power to import and export data in WordQuiz. This feature is particularly useful for backing up application data or migrating data from one environment to another. You'll find this feature in the "Data Import-Export" section in the main menu.

Thank you for choosing WordQuiz! We are confident you'll find it an enjoyable and effective tool in your language learning journey. Happy learning!
